

Full Job Description:

Are you looking for a place where you can take care of families, grow professionally, and share the message of Chiropractic?

We are looking for a caring, trustworthy, respectful, responsible and positive, Nevada licensed Chiropractor who strives for excellence in everything they do to join our team in Reno, NV. Work in an upbeat, professional environment with a talented and supportive team. Our well-known, family-oriented chiropractic wellness center has been serving Northern Nevada since 2000 and we are looking for an extraordinary Chiropractor to help change lives. We are a subluxation and philosophy based practice utilizing chiropractic adjustments, advanced clinical nutrition, Sole Support™ orthotics and active rehabilitation to manage musculoskeletal, neurological, digestive, and hormonal conditions. We want to empower our patients to live their best life. With comprehensive training and team collaboration, we provide a work environment full of support and passion.

The ideal individual will provide excellent professional chiropractic care and be able to collaborate with other medical professionals for the best patient outcomes. Familiarity with Blair technique is very helpful. You should enjoy growing relationships and building a practice as part of a purpose driven healthcare team. The right doctor will be a caring, personable, go-getter, and work well with others.

Responsibilities:

- Consult with patients by reviewing health and medical histories; questioning, observing, and examining patients; and reviewing x-rays and imaging as indicated.
- Examine and evaluate patients' spinal health and neuromusculoskeletal systems to diagnose and determine the care necessary for a patient's best outcome.
- Perform excellent chiropractic adjustments to spine and extremities using office approved techniques
- Educate patients on the quality of life benefits of routine chiropractic care and healthy chiropractic lifestyle.
- Effectively communicate recommended care plans and hold accountability for the patient.
- Maintain accurate case histories, daily notes, records and follow up of patients that comply with State and HIPAA privacy standards.
- Obtain and record patients' health history.
- Order or arrange for diagnostic imaging to be taken, when medically necessary.
- Competence in analyzing imaging to locate subluxations and rule out red flags/contraindications.
- Building positive lasting doctor-patient relationships.
